FLEXI-TILE[®] HD STUDDED

The Flexi-Tile Studded HD is designed for a wide range of heavy-duty applications including industrial, factory and warehouse flooring. Specifically designed for the stresses of industrial usage, the 7mm thick HD Studded is our most durable flooring solution.

The Flexi-Tile HD is manufactured with a unique T-shaped interlock, giving this flooring increased structural strength whilst maintaining ease of installation. The raised disc surface is designed help support heavy loads and easily withstand the daily rigours imposed by forklifts, pallet trucks and any production machinery.

With Flexi-Tile's 'Loose Lay' design, the HD Studded is perfect for installation on damp, cracked and damaged concrete or epoxy floors. Both quick and easy to lay, with minimum effort needed to clean and maintain, the Studded tile is the best choice for a busy industrial environment. With a 25 Year guarantee, this flooring solution will be able to withstand decades of daily abuse without compromising on comfort and style.

Available in 8 different colours, Flexi-Tile HD flooring will brighten up any area and provide extra safety in the work place. With Anti-slip and noise reduction attributes, this chemical resistant flooring meets all EU safety standards whilst also looking great and feeling comfortable underfoot.
